The process for changing your IP address within DirectAdmin isn't complicated, but it does come in two parts, which are both very important. Please follow the step-by-step directions outlined below for more information.

Changing the DirectAdmin licensed IP:

- Please go to the contact us section of our website
- Fill in all the relevant information needed
- Next, indicate that you'd like to change your DirectAdmin license IP
- Finally, click the "Submit Form" button

Adjusting the IP address within DirectAdmin:

- Login to your DirectAdmin Virtual/Dedicated server via SSH
- Next, please run the following command within Linux:

cd /usr/local/directadmin/scripts &&
./getLicense.sh 24580 <**LICENSE-KEY**>

- Please adjust the items outlined in BOLD to their correct values
- Then, please restart DirectAdmin by doing the following:

/etc/init.d/directadmin restart

- Next, you'll need to switch out the IP address by doing:

cd /usr/local/directadmin/scripts &&
./ipswap.sh <**CURRENT-IP**> <**NEW-IP**>

- Please adjust the items outlined in BOLD to their correct values
- Upon completion, we strongly suggest doing a reboot by doing:

reboot

Should you have any further questions pertaining to your DirectAdmin license, please feel free to get in contact with our web hosting support team for additional assistance.
