How do I enable/disable webmail clients within Plesk?

Disabling/Enabling webmail via your Plesk Panel interface isn't only quick and easy, it's also seamless. Please follow the step-by-step directions outlined below on how this can be accomplished:

- Login to your Plesk as the administrator
- Next, locate the "Server Management" section and on "Tools & Settings"
- Once under "Tools & Settings" locate the "Mail" section
- Then, click on the "Webmail" link and adjust the configurations as needed

If you have any further questions pertaining to your [Plesk license](#), please feel free to get in contact with our web hosting support team for additional assistance.
