What control panels will Installatron function with?

Installatron, being one of the few cross-platform auto-installers, will function on almost any control panel. Nevertheless, for the exact list, please see all the control panels supported outlined below.

Linux/Unix based control panels:

- cPanel/WHM
- Parallels Plesk Panel
- DirectAdmin
- InterWorx
- Kloxo

Windows based control panels:

- Parallels Plesk Panel
- Enkompass

Should you have any further questions pertaining to your Installatron license, please feel free to get in contact with the LicenseCube support team for additional assistance.
