What control panels will Fantastico work with?

Posted: **LicenseCube Support** [support@licensecube.com]

Unlike many of the other auto-installers, such as Installatron, and Softaculous, Fantastico will only work with a cPanel/WHM based server. This could be a VPS (Virtual Private Server) or dedicated server.

If you should have any further questions pertaining to your Fantastico license, please feel free to get in contact with the LicenseCube support team for additional help.
