Much like the installation process, the uninstallation process is also quick and rather easy. Simply follow the step-by-step directions outlined below for your convenience.

How to uninstall Installatron within a Plesk for Windows server:

- Login to your Virtual/Dedicated Plesk for Windows server via RDP
- Next, open the command line window and run the following:

```
rd \"%plesk_dir%\\admin\\htdocs\\modules\\installatron\" /S /Q &&
 rd \"%itron_dir%\\Data\" /S /Q &&
 rd \"%itron_dir%\\etc\" /S /Q &&
 rd \"%itron_dir%\\lib\" /S /Q &&
 \"%itron_dir%\\uninstall.exe\" &&
 FOR /D %i IN (\"C:\\inetpub\\vhosts\\*\") DO rd \"%i\\.installaton\" /S /Q
```

- Upon completion, your Plesk installation will be completely removed!

If you have any further questions pertaining to your [Installatron license](#), please feel free to get in contact with the LicenseCube support team for additional assistance and/or guidance.
