---

The process for installing RVSiteBuilder on a DirectAdmin server isn't only easy, it's quite quick too. Simply follow the step-by-step directions indicated below, and you'll have RVSiteBuilder installed within minutes on your DirectAdmin server.

## Installing RVSiteBuilder via SSH:

- Login to your DirectAdmin Virtual/Dedicated server via SSH
- Then, please run the following command within Linux:

```
mkdir /usr/local/rvglobalsoft/ &&  
cd /usr/local/rvglobalsoft/ &&  
rm -rf /usr/local/rvglobalsoft/rvsitebuilderinstaller &&  
rm -f /usr/local/rvglobalsoft/rvsitebuilderinstaller.tar &&  
wget http://download.rvglobalsoft.com/rvsitebuilderinstaller.tar &&  
tar -xvf rvsitebuilderinstaller.tar &&  
rm -f /usr/local/rvglobalsoft/rvsitebuilderinstaller.tar &&  
/usr/local/rvglobalsoft/rvsitebuilderinstaller/DaPreInstall.sh
```

- Please allow for a few minutes for the process to complete
- Next, open/edit the following file within SSH

```
/usr/local/directadmin/conf/directadmin.conf
```

- Please adjust the "numservers" values from 5 to 15
- Upon completion, please save your changes!

## Configuring RVSiteBuilder via DirectAdmin:

- Login to your DirectAdmin Virtual/Dedicated server
- Next, click on the "RVSiteBuilder Installer"
- Launch the installer by using the following line:

```
perl /usr/local/rvglobalsoft/rvsitebuilderinstaller/autoinstaller.cgi
```

- Once complete, please configure any/all settings needed.

Should you have any further questions pertaining to your [RVSiteBuilder license](#), please feel free to get in contact with the LicenseCube support team for extra help.
