The process for integrating WHMCS and RVSkin is quite easy and can be accomplished within a few minutes. Please follow the step-by-step directions outlined below.

- Login to your cPanel/WHM Virtual/Dedicated server via WHM
- Next, locate the "RVSkin Manager" and click on "Integration"
- Finally, click on the following option to enable it:

"3rd-party single sign-on system"

Upon completion, you will now be able to sync WHMCS with RVSkin, installed on this particular virtual/dedicated server.

Should you have any further questions pertaining to your [RVSkin license](#), please feel free to get in contact with the LicenseCube support team for additional assistance.
