How do I reset my Plesk SiteBuilder admin password?

Resetting your Plesk Site Builder admin password isn't as complicated as you may initially think. However, you must have SSH (Secure Shell Access) to your server, and perform the following steps. Please see below:

- Login to your Virtual/Dedicated server via SSH
- Next, run the following command within Linux:

sb_config --sb_admin_passwd **new_password**

- Update the values outlined in BOLD to their correct values
- Once completed, you should be able to login!

Should you have any further questions pertaining to your Plesk SiteBuilder license, please feel free to get in contact with the LicenseCube support team for additional help.
