What are the RVSkin requirements?

The core requirements for getting RVSkin installed on your server is quite straightforward, please see them outlined below.

- cPanel/WHM VPS or Dedicated server
- FULL root access over your server

Aside from the aforementioned requirements, you can install RVSkin within your web hosting server within a couple of minutes.

Should you have any further questions pertaining to your RVSkin license, please feel free to get in contact with the LicenseCube support team for extra help.
