The process for restoring your Installatron is quick and only takes a couple of moments. Please follow the step-by-step directions outlined below for your convenience:

- Login to your Virtual/Dedicated server
- Navigate to the Installatron "Admin" section
- Next, click on the "My Backups" tab
- Locate the backup you wish to restore and click:

"Restore this Backup"

- Provide any additional information that is required

Once completed, the backup will be fully restored, and you will be able to access the "My Applications" tab and locate the newly restored application.

If you have any further questions pertaining to your [Installatron license](#), please feel free to get in contact with the LicenseCube support team.
