How do I push my domains into another eNom account?

The process for pushing already existing domains into your newly created eNom reseller account is easy and will only take a couple of minutes to accomplish. Please follow the step-by-step directions outlined below for your convenience:

- Log to the eNom Reseller login page:

\# https://www.enom.com/login.aspx

- Input your username/password that you where assigned
- Once logged in, go to the "Domains" section, and select "Bulk Tools"
- Next, click on "Push Domains In Bulk"
- Then, input the details requested into the below-mentioned fields:

Domains to Push:
 Push Domains To:

- Once ready, simply click "Push Domains" to complete the transfer
