The process for featuring a script within Installatron is quite easy and will only take a couple of minutes to accomplish. Please follow the step-by-step directions outlined below to complete this.

- Login to your Virtual/Dedicated server
- Then, navigate to the "Installatron admin/reseller" panel
- Next, locate the section entitled "Applications" on the left-side menu
- Once located, click on "Access Controls" subsection to load the page
- Locate the script you'd like to feature, and click on the checkbox with the star
- Once ready, simply click on "Save All" to apply the changes to your config

If you have any further questions pertaining to your Installatron license, please feel free to get in contact with the LicenseCube support team for additional help.
