While the process for deleting a backup isn't always a recommended option, we do provide this tutorial as it might be required to save space on your web hosting server. Please follow the step-by-step directions outlined below for your convenience:

- Login to your Virtual/Dedicated server
- Once logged in, navigate to the "Installatron Admin"
- Next, click on the "My Backups" tab in the menu
- Then, simply click on the "delete" tool within the "My Backups" option
- Follow the step-by-step wizard which will appear

If you have any further questions pertaining to your [Installatron license](#), please feel free to get in contact with the LicenseCube support team for additional assistance.
