Switching the language within Softaculous will only take a couple of minutes, and allows settings and configurations to be displayed within your native language. To do this, please follow the step-by-step directions outlined below for your convenience:

- Login to your Softaculous Admin Area
- Next, click on "Settings" in the top menu and locate "General Settings"
- Under "General Settings" locate "Choose Language" and change as needed
- Finally, when ready, simply click "Edit Settings" to apply!

If you have any further questions pertaining to your [Softaculous license](#), please feel free to get in contact with the LicenseCube support team for further assistance.
