The uninstallation process is as smooth as the installation process. It only takes a few step-by-step directions and you'll have Fantastico completely uninstalled from your cPanel web hosting server. Please see below for more details:

- Login to your cPanel Virtual/Dedicated server via SSH
- Next, run the following command via SSH:

```
rm -rf /var/netenberg/ &&
 rm -rf /usr/local/cpanel/whostmgr/docroot/cgi/fantastico/ &&
 rm -rf /usr/local/cpanel/3rdparty/fantastico* &&
 rm -rf /usr/local/cpanel/base/frontend/*/fantastico &&
 rm -f /usr/local/cpanel/base/frontend/x/cells/fantastico.html &&
 rm -f /usr/local/cpanel/whostmgr/docroot/cgi/addon_fantastico.cgi
```

- Upon completion, Fantastico will be completely uninstalled!

Should you have any further questions pertaining to your Fantastico license, or the uninstallation process, please feel free to get in contact with the LicenseCube support team for additional help.
