The process for installing your Fantastico license on a cPanel web hosting server is quite easy and can generally be accomplished within a few easy to follow steps. Please see the step-by-step directions outlined below for your convenience.

Installing Fantastico via SSH:

- Login to your cPanel Virtual/Dedicated server via SSH
- Next, paste the following command into SSH:

```
cd /usr/local/cpanel/whostmgr/docroot/cgi &&  
wget -N http://files.betaservant.com/files/free/fantastico_whm_admin.tgz &&  
tar -xzipfantastico_whm_admin.tgz &&  
rm -rf fantastico_whm_admin.tgz
```

- Upon completion, please close the SSH window

Configuring Fantastico via WHM:

- Login to your cPanel Virtual/Dedicate server via WHM
- Once logged in, scroll in the left side menu until you find:

Fantastico De Luxe WHM Admin

- Once located, please click on it and follow the instructions
- Upon completion, please double-check all the settings configured

Should you have any further questions pertaining to your [Fantastico license](#), please feel free to get in contact with the LicenseCube support team for additional assistance.
