WHMCS, being one of the more sophisticated billing systems online, comes with a myriad of options and features. One such offering is a fully featured RESTful API built upon JSON. So whether you are looking at building next big thing, or simply trying to integrate your billing system with a monitoring service, you can rest assured it can be done using WHMCS.

Should you have any further questions pertaining to your WHMCS license, please feel free to get in contact with the LicenseCube support team for additional assistance.
