WHMCS is one of the fastest growing billing systems currently online. WHMCS has a plethora of features that come built-in and in the form of WHMCS modules. WHMCS modules are used to expand the core functionality of WHMCS and allow developers worldwide to either get their name out or to earn an additional revenue stream.

While customers who have purchased their WHMCS license via LicenseCube are unable to access the WHMCS directly, LicenseCube does offer all the same features and benefits that WHMCS direct customers get to enjoy. These features include:

- FREE eNom Accounts
- FREE 2Checkout Account
- WHMCS Security Bulletins
- WHMCS version upgrades
- and much moreâ€¦

Should you have any further questions pertaining to your WHMCS license, please feel free to get in contact with our web hosting support team for additional assistance.
