---

While the installation of WHMCS isn't complicated, if you are uneasy about installing it yourself, you may request that we perform the installation for you. To do this, please follow the step-by-step directions outlined below:

- Please go to the contact us section of our website
- Fill in all the relevant information needed
- Next, indicate that you would like us to install WHMCS
- Finally, click the "Submit Form" button

Once you've submitted the aforementioned installation ticket, you should receive an automated email reply with your ticket number. You may use this ticket number to track the status of your installation request.

If you have any further questions pertaining to your WHMCS license, please feel free to get in contact with the LicenseCube support team for additional assistance.
