The process for updating files within Fantastico only takes a couple of minutes. Upon completing this process, you will have the latest security fixes and script versions currently offered by Fantastico. Please follow the step-by-step directions outlined below.

- Login to your cPanel Virtual/Dedicated server via WHM
- Next, locate the section entitled "Plugins" and then click on:

Fantastico De Luxe WHM Admin

- Once under "Fantastico De Luxe WHM Admin" click on "Update/Get files"
- Then, click on "Install latest Fantastico De Luxe" button
- Upon completion, your Fantastico should be fully updated!

If you have any further questions pertaining to your [Fantastico license](#), please feel free to get in contact with the LicenseCube support team for additional assistance.
