Configuring PayPal within Ubersmith is quite a straightforward process. Nonetheless, we've made this step-by-step guide to ensure that you correctly configure Ubersmith to work with PayPal. Please see below:

Enabling IPN within your PayPal account:

- Login to your PayPal Account
- Next, click on the "Profile" page and then on "My selling tools"
- Then locate the section entitled "Getting paid and managing my risk"
- Next, locate and click "update" on this option "Instant payment notifications"
- Once the page loads, click on "Turn On IPN" and then on "Edit Settings
- Under the "Edit Settings" option, input the following URL:

https://**your-ubersmith-instance.com**/ipn/paypal.php

- Please update the items outlined above in BOLD to their correct values
- Next, under the "IPN Messages" click on "Receive IPN Messages (Enabled)"
- Once ready, simply click "Save" to apply your changes!

Configuring PayPal within Ubersmith:

- Login to your Ubersmith as the administrator
- Next, go to "Setup & Admin" and onto "Client Manager"
- From the "Client Manager" option, click on "Payment Processing Options"
- Under the "PayPal Configuration" please input all the required information:

    - PayPal Email Address:
    - PayPal Currency: USD
    - PayPal Notification Address: (mentioned above)

- Once ready, simply click "Save" to apply these changes!
