Ubersmith is the most advanced publically available billing system. As such, Ubersmith has a few features that most billing systems do not. One such feature is the ability to save "Advanced Searches"; this allows users to repeat a certain query without having to rebuild it every time. To do this, please follow the step-by-step directions outlined below:

- Login to your Ubersmith as the administrator
- Next, locate the "Search" box in the top right corner
- Once located, click on the "advanced" text link
- Then, please make the query you'd like run within Ubersmith
- Next, click on "Search Filters" to modify/save your search query
- Finally, when ready to save, simply use the "Save Search" section!

Should you have any further questions pertaining to your [Ubersmith license](#), please feel free to get in contact with the LicenseCube support team for additional assistance.
